## Student reviews

**NicoleProvost** reviewed 24 days ago:

I used to be very worried about the upcoming exam. Thanks to Richard, some concepts that I struggled with prior to our session are very clear to me now. What I struggled with for hours, Richard helped me to understand in a matter of minutes. I highly recommend him.

**richardsetiadi** reviewed 26 days ago:

I had a great first experience with Richard. I took a FRST 231 (Statistics) course, and was finding a hard time understanding the material, but Richard was extremely helpful and slowly explained all the concepts to me. Will definitely recommend him!

**sarahhaysom** reviewed 3 months ago:

I had a great experience with Richard. He always came prepared with notes and extra forms of help at my disposal. He helped clarify ideas that were confusing to me. Would highly recommend.

**tasha123** reviewed 3 months ago:

I had an excellent experience with Reza S. Very clear notes that were given to you at the end of the session and came prepared with multiple different resources for my STATS 251 course. I also took Differential Calculus and Multivariable Calculus with him in my second year and he was extremely helpful. Highly recommend. -Natasha

**madfran** reviewed 5 months ago:

He is extremely nice and fun! I can't believe how hard I thought my course was. If you are struggling with stats I assure you he will make it way less scary and give you tons of resources to bang through it.

**Jkhorn** reviewed 6 months ago:

I had a very good experience with Richard as a tutor. I did a group tutoring session, and the entire time he made sure both of us were comfortable with the material before moving forward. He gave us a lot of useful resources to use to improve our skills, and overall restored the confidence we needed to continue working hard in the course. He also gave each of us a copy of neatly taken detailed notes to review after the session. Overall was very helpful!

**sallynewtonmasonn** reviewed 6 months ago:

Richard is a very good tutor, he's familiar with what you are currently doing in your course. Being familiar with what you are currently doing in your class, your lectures, and your syllabus is very important if you want effective tutoring help, and that makes Richard a better tutor than others. He came prepared, with our current Course note book text, and many past exams. He gives structured advice on what you should focus on and explains things step by step. Thanks :)

**josduncan** reviewed 6 months ago:

Extremely helpful tutor session. Only had just over an hour but managed to get through most of the learning concepts expected for the exam, so he was able to make good use of time. He also recommended effective study plans and extra resources. I also got to keep many pages of notes he wrote during the session to use as future reference. He also helped with my current "OSH" that I was very stuck on. I have a hard time passing my calculus exams and after this session I feel much more prepared. Would definitely recommend! Thank you!

**zalbert** reviewed 6 months ago:

I needed help with TRU Math 1141, he did a great job at explaining any trouble that I had and I really enjoyed the tutoring. He helped me with any questions that I had and elaborated well.

**smakhov** reviewed 7 months ago:

Great experience, Richard is very passionate about math and statistics. Was very pleased to work with him. If you want to catch up with the material on a course, it is an excellent choice to get help from him.

**sare** reviewed 7 months ago:

He is very good at understanding exactly what a question is asking and how to solve it. I received much help from him such as explaining steps to me that were needed to solve any question I gave him.

**JillianTrach** reviewed 7 months ago:

Richard is an excellent tutor. He's very approachable and easy to ask questions. He's also extremely organized and makes really nice notes to reference later and comes to your tutoring sessions prepared so as to not waste any time. Highly recommend!

---

**Moham7777** reviewed 7 months ago:

He is an excellent tutor. He is very helpful and makes you work a lot so you would get high grades.

---

**blakecarscadden** reviewed 7 months ago:

Great tutor. Really knows his stuff, writes everything down so that you see each individual step. Highly recommend!

---

**Will\_Kirby** reviewed 7 months ago:

My experience was excellent. As soon as we sat down it was obvious that Richard knew exactly what he was talking about, from years of experience. I needed help with Math 105, and Richard started by giving me a large amount of extremely helpful resources to prepare with. His patient and step by step walkthroughs of problems and concepts were easy to follow and understand. Furthermore, each problem we did was chosen by Richard for its applicability to understanding larger concepts, and many were drawn from challenging parts of past midterms and exams.

---

**oediri** reviewed 8 months ago:

After reading Richard's biography, and other students testimonials about him, I was instantly sold to the prospect of following my regular lectures with additionally tutor material. Richard did not disappoint, but rather exceeded my expectations with his methodical teaching methods, his clear cut notes, his grasp of mathematics as a whole and his welcome package, where he introduces the subject of mathematics with a sense of ease.

I definitely grasped more than what I did whilst in classes, and I recommend anyone else who struggles with any aspect of Mathematics as a whole to meet up with Richard, and assess the topics again, with him by your side. I guarantee he won't disappoint.

---

**laxmack** reviewed 8 months ago:

Very friendly, patient, and well prepared. He knows the general schedule of the courses because he has been tutoring them for so long, and on top of that he also keeps up to date with courses through his other students as well as the online course material and layouts. This shows his capability to help us students excel in our courses week by week but keeping an eye on the major goal such as midterms and tests.

---

**clairejean** reviewed 8 months ago:

My experience with Reza has been excellent, he helped me with STAT 200. He was easy to talk to and provided multiple explanations for topics to help me understand better. He also supplied me with many alternative resources for my studying (videos, texts, websites, and past exams). Highly recommended!

---

**jordanbates** reviewed 8 months ago:

I met with Richard for the first time today and I am confident I have found a tutor to count on for the remainder of the term for MATH101. You can easily tell just how knowledgeable he is with mathematics and has a genuine concern for your understanding! He also provides you with notes and resources, including videos to watch and worksheets to do, so that you can really practice the material and obtain the best understanding. Based on what I have seen so far, I truly recommend his tutoring service!

---

**xftang** reviewed 9 months ago:

Richard is amazing! He is patient and very motivational. This session comes to be well prepared and organized, and he knows the materials (MATH200) very well. He is very resourceful, familiar with exam-style questions and could answer hard questions immediately.

---

**Armak** reviewed 9 months ago:

It was great, Reza (Richard) was well prepared, had a clear understanding of the material (math 255/215). Both me and my friend walked out the session feeling more confident for our exam (we are huge slackers). Furthermore Reza is very kind and also has a great sense of humor which helps with the learning experience. If you are not prepared for your exams Reza is your man. 5/5 stars!

---

**Alice04** reviewed 9 months ago:

Richard is an amazing tutor. He works through problems with efficiency and ease, however always stops to make sure that you are understanding the broader concepts of the entire course, rather than just how to solve specific problems. He is very knowledgeable and by far the best tutor I have met on HelpHub so far. I would recommend him to anyone needing help at UBC!

---

**farazdamji** reviewed 10 months ago:

Richard is very knowledgeable in mathematics and has a solid understanding of the subject. He explains concepts clearly in an easy to understand fashion and offers good explanations when solving a variety of problems.

---

**creightonlau** reviewed 10 months ago:

Richard is patient with his students and very motivational in helping the student continue to strive for success within their academic studies. Helps students clearly with certain problems in a calm manner that doesn't rush the student if they don't understand the

certain material. He works step by step for the problems that the students don't get and doesn't rush to the next topic if the student doesn't get the previous one. He works patiently until the student fully masters the material, to ensure that he is helping the student succeed in every way possible!

---

**MAMMY** reviewed 10 months ago:

Richard was very patient and friendly. I was in a bit of a panic and he was able to calm me down so that I could listen to what he was saying. I wish I had contacted him earlier in the term to fully benefit from his guidance. Definitely recommend him. My only advise is don't wait until the last minute!

---

**danico** reviewed 10 months ago:

My help session with Richard was great! he is well prepared and his explanations are clear. He provides you with study tips and many resources. If you are having trouble with any math course, Richard is your guy!

---

**annalise** reviewed 10 months ago:

So many great resources, extremely prepared and organized!

---

**amar\_heer** reviewed 11 months ago:

I had a great experience!!! If you are in need of help with a course, I highly recommend richard! What makes him difference is that he has abundance of resources and he really does care. Very friendly, and is very good at explaining concepts in different ways. I feel way more confident after just one session, I will for sure get more sessions! Great guy!

---

**AndyT** reviewed 11 months ago:

When I arrived for my first session with Richard he was not only extremely friendly and easy to get along, but he was also exceedingly prepared. He provided me with priceless study and learning resources, as well as made many topics much easier to grasp. If you're looking for a high-class tutor, Richard is your man.

---

**bncmgs** reviewed 11 months ago:

Richard is awesome, he provides very helpful resources and knows everything from the basics to the very tough concepts. I highly recommend him.

---

**conno2727** reviewed 11 months ago:

Comes very prepared with all the previous exams and makes everything so much simple. Very good tutor!

---

**EmilyKao** reviewed 11 months ago:

Very good, very Patient, and was well prepared!

---

**TannerDavies** reviewed 11 months ago:

Great! He really knows his stuff and he provides clear solutions while teaching you in a memorable way. At the end of each session he hands out notes for you to review in your own time as well as websites to help you study. I recommend him to anyone in university taking first year math.

---

**mattkl66** reviewed 11 months ago:

Reza was very enthusiastic and knowledgeable. He was organized, engaged, and well prepared for any question. Highly recommended.

---

**byronket** reviewed 12 months ago:

Roger helped me a lot! He's very prepared and resourceful. He also is great at explaining and demonstrating new concepts.

---

**taylorross** reviewed 1 year ago:

Richard was very knowledgeable and clearly explained step by step solutions to my calculus problems. He came to our session very well prepared with a large amount of supplemental material and wrote down a detailed plan for success. He was also patient and understanding which is very important for a tutor. I will be able to utilize my study time more efficiently after meeting with Richard and would highly recommend him as a tutor.

---

**RishabhJ** reviewed 1 year ago:

Richard is an EXCELLENT tutor. He is Patient, Kind and Understanding. He has a THOROUGH knowledge of all the courses he teaches and one feels confident under his guidance. He also clarifies all doubts that may arise during his teaching. He makes each session interesting with his enthusiasm. I totally recommend him.

---

**CarolineCullinan** reviewed 1 year ago:

Richard was extremely helpful and well prepared. He has an abundance of helpful resources and provides you with a systematic study plan that allows for efficient preparation. It is obvious that Richard is very familiar with the UBC Math courses. He was able to point out the most important ideas and concepts for sufficient exam preparation. Richard goes above and beyond the expectations of a basic tutor. I most definitely recommend his services.

---

**Brigo** reviewed 1 year ago:

Richard has a wealth of knowledge and can answer any questions you have clearly and to the point. I like how he breaks everything down step-by-step, walks you through it, and he reads your learning style so it makes sense to you. I look forward to a few more sessions and would recommend him to anyone.

---

**Jac** reviewed 1 year ago:

He is very helpful and well prepared. He points out useful/helpful resources that you most likely didn't know about. Also, he helps you find out what you need help with most, instead of wasting time on examples and topics that you already know well.

---

**Anushree** reviewed 1 year ago:

Really helpful, comes prepared and really cares that you do well. Very patient and goes at your pace.

---

**Izzy\_Fraser** reviewed 1 year ago:

Great experience with Richard! Comes very well prepared, gives you some good study techniques, and could answer all my questions.

---

**emtuson** reviewed 2 years ago:

My experience with Richard was great! He was very patient and helpful. I look forward to working with him again.

---

**AllisonPritchard** reviewed 2 years ago:

Richard was extremely helpful!!! He is incredibly nice and a great teacher! He has great resources that are very worthwhile! I would recommend him to anyone who is having troubles with math (big or small). I feel much more prepared for my midterm.

---

**Martina\_A** reviewed 2 years ago:

Richard is very well prepared and points out the most important things you have to know about a topic. He is an understanding, motivating and patient tutor.

---
